WSSA Report to AUS

We have been having a really nice February. We have found a fantastic team of editors for the WSSA affiliated journal *Intersections*. We recently opened submissions and I believe a member has already contacted the AUS to be included in its upcoming listserv. I encourage any other association to share this information as we accept all papers across all faculties and programs related to gender and diversity.

We have been working with the IGSF (Institute for Gender, Sexuality, and Feminism) on upcoming program changes, hires, and future classes. A name change will soon be in order for the WSSA...the major women's studies is subject to change. There have been a couple of very nice events where students have had the opportunity to speak with potential future hires who have a very big impact on the type of material that will be taught in the department.

Warmly,

The WSSA
