

Report of the Vice President Internal

Items:

- Finalized list of Departments with executives that have missed either equity training or departmental orientation; some departments still missing budgets
- Meeting one on one with many departments and executives to go over exemptions etc, please please if you know this applies to you or anyone in your department have them come see me on Friday
- Equity make up training being planned for the 24th or sometime that week pending room availabilities.
- Been meeting with many of you one on one, thank you for coming to my office hours! I am slowly but surely getting through all the requests
- Tabling requests and requests for the lounge are starting to pile up, if your department wants to book spaces they have priority just as a reminder, and our calendar on the website is not working the way it should so you have to go into the separate window to see the full schedule!
- Events permits I am filling out still s/q underway
- A lot of outside AUS groups have been emailing me about getting spaces and it's hard to keep track of which ones have departmental affiliation or not, please have them email through your department instead -- I unfortunately have to turn these down as it would violate our MOA.
- Overall a lot of attendance during my office hours, and hours and hours of s/q work - Been taking a few days off last week and this week. If I seem unresponsive it's because I have just finished 4 midterms and have 1 more to go!

AUSEC

- Collecting contracts, looking to see if these positions can be stipended/where that might come from.

FEARC:

- going over current applications, scheduling interview times.
- Uploading the application online and resending out for the VP academic and President VP external positions

Respectfully Submitted,

Kevin Zhou
