Report of AUS Environment Council
Wednesday, Oct 16, 2019

Event Reports
- None to report

General Updates
- Departmental Green Guide:
    - Using a template from past years AUSec wants to put together a comprehensive "Green Guide" that faculties and councils can use as a reference for sustainable event planning.
    - Will have a "checklist" to reference for planning events.
    - Will recommend sustainable vendors/organizations (in tandem with the VP Finance).

Upcoming Initiatives
- E-Waste Bin
    - Looking into setting up an e-waste bin in the McConnell Eng main floor for students to use.
    - Depending on which disposal service we use we may not be able to accept laptops originally but we are looking to collect small electronics initially (ie. chargers, headphones, cellphones).
- SNAX Collab
    - Looking into collaborating with SNAX to promote eco-friendly consumption habits with McGill students.
    - Punch-card system: bring a reusable mug/thermos 6 times get the 7th drink free? Bring your own utensil and get a discount? Any suggestions?
- AUSec Info in the AUS Listserv
    - Would it be worthwhile to have a blurb on the AUS listservs that say what AUSec or SSMU EC is up to?

Respectfully submitted,

Cristina Venegas
AUSec Internal Commissioner
